

## Directions to Disney Parks

Magic Kingdom, Epcot, Hollywood Studios, Animal Kingdom  
Typhoon Lagoon, Blizzard Beach  
Disney Springs (Market Place etc.) and other Disney properties.

### Option 1:

Lindfields is located off 192 west. The normal route to Disney is turn right out of Lindfields onto the 192. Keep on 192 for approx. 4 miles until you come to the Disney exit (it's on the right). Now follow the signs to the park you require.

However, particularly during peak times, the 192 can be very busy, so below we provide some alternative routes!

Firstly we recommend you have a look at Google Maps (put in Disney World, FL and scroll in & out until you can locate Lindfields Blvd, the 192 (W.Irlo Bronson Memorial Hwy.), World Drive, the Disney parks & roads and Interstate 4 (which is just past the Disney exit).

World Drive is the road that leads from the 192 and if you stay on it goes all the way to the Magic Kingdom. Roads off lead to all the other parks.

### To avoid the traffic on the 192, here are some alternative routes:

#### Option 2:

When leaving our home, as normal, take a left onto Bloomsbury Drive & right onto Kensington Court.

Then, instead of turning left at Lindfields Blvd, turn right!

Approx 0.5 miles, turn left into Funie Steed Road. This road runs parallel to the 192.

Straight on at junction with Formosa Gardens Blvd.

Turn left onto Entry Point

Straight on at junction with 192 onto Sherberth Road.

Follow this road (it winds a bit) until you come to Osceola Parkway, where you turn right.

Now follow the signs to the park you require.

#### Option 3:

When leaving our home, as normal, take a left onto Bloomsbury Drive & right onto Kensington Court.

Then, instead of turning left at Lindfields Blvd, turn right!

Approx 0.5 miles, turn left into Funie Steed Road. This road runs parallel to the 192.

Straight on at junction with N Old Lake Wilso Road. You have to turn right but do a U turn at next lights. Turn right back on to 192 and continue until you come to the Disney exit on the right. Now follow the signs to the park you require.

#### Option 4:

To avoid some of the traffic on the 192, here is an another route (involves a toll of approx. \$1.50): Turn right out of Lindfields and after a couple of minutes, drive turn left at the traffic lights onto State Road 429 heading north. Take the first exit after the toll booth onto Western Way. Then, at the junction with Buena Vista Drive, turn right for animal Kingdom or left for all the other Disney parks, Disney Springs (Marketplace etc.).

**Option 5:**

Turn right out of Lindfields onto the 192. Turn left onto Black Lake Road, left onto Sherbeth, right onto Osceola Parkway, then follow signs to the various parks. You can also join Sherbeth by turning left further down the 192.

When at the parks, it is not that easy to give you exact directions back to Lindfields, as it very much depends on which park you are at and which exit you come out of! Some exits take you on the Disney Roads onto the 192 and others take you on the Disney Roads onto I-4 at various places (after which, you need to take I-4 west and then 192 west).

If you are unsure, it may be easier to go with the flow, rather than trying to find your way round the Disney roads to one of 'our routes' with the possibility of getting lost in the process!

We hope by referring to the Google map, that all makes sense!?!
